EDUCATION

Sheridan College   Brampton, ON
Computer System Technology - IS Engineering - Advanced Diploma   **Sept 2021 - Sept 2024**
- GPA : 3.4/4.0

Relevant Coursework
- Data Structures and Algorithms, Programming for Mobile Apps, Software Tools, Advanced Object Oriented Programming, Database : SQL, Research in Computer Science, Professional Practice In Computing

EXPERIENCE

IT Inventory Clerk| *Trillium Health Partners*   **Nov. 2023 - Mar. 2024**
- Conducted Inventory on Trillium owned devices across multiple locations
- Tracked and pinged missing devices.
- Provided precise descriptions and locations for both existing and newly acquired devices.

IT Consultant | *Sherbourne Health*   **Mar. 2021 - Aug. 2021**
- Delivered technical/user support and oversaw inventory management for COVID-19 vaccination clinic staff
- Uploaded and securely converted client data to COVaxon, administering 500+ doses daily.
- Automated Excel templates to expedite data conversion and resolved technical issues with Wi-Fi and printers

PROJECTS

- **Sticky Note** - *Javascript, HTML, CSS*
  - Developed a dynamic and efficient Sticky Note application using a tech stack centered around JavaScript, HTML, and CSS.
  - JavaScript functions, including local storage for data persistence, to enhance user experience. Employed modern styling techniques such as CSS Grid for a responsive and visually appealing layout.
- **Interactive Portfolio** - *Javascript, HTML, CSS*
  - Designed and implemented a dynamic four-page portfolio website with JavaScript, HTML, and CSS, featuring an interactive project showcase, structured resume, personalized "About Me" page, and a secure contact form
- **Multi Form Sign-In** – *React.js, HTML, CSS, Node.Js*
  - Built a responsive Multi-Form Sign-Up application using React.js for the front end and Node.js for the back end. React.js facilitates an engaging user interface with multiple forms, while Node.js manages secure sign-up processes and sends confirmation emails. Achieve an efficient and user-friendly registration experience through the synergy of React.js and Node.js.
